Patient Demographics.

Place your completed patient demographic sheet here for reference during the scenario. Covered or upside down.

**Drugs**

Roll a die. Add 5 to the number on the die. Select that many cards. These are the drugs you are taking.

**Confusions**

Draw the same number of Confusion Cards as Drug Cards. Match them up to make the best fit. Use the directions on the Confusion Card to alter your usage of the drug.

**Personality**

Select 3 cards. Choose one to be your personality. Discard the other two.
