RESEARCH

- 1/98-5/98 **“Pharmacist Managed Helicobacter Pylori Clinic: Outcomes Assessment”**— Currently, 1/3 of the drug budget at ACORN clinic (rural, indigent clinic) is spent on histamine antagonists and proton pump inhibitors. Therefore, we established a clinic to help improve patient care, ensure appropriate use of anti-ulcer medications, and reduce costs associated with anti-ulcer medications. Funding: AphA Foundation Incentive Grant for Practitioner Innovation in Pharmaceutical Care
- 7/97 **“UF Diabetes Disease State Initiative”**. Health Center Wide research program designed to improve outcomes in patients with diabetes. Also, established a focus group analysis of ACE inhibitor use in patients with diabetes. Funding: University of Florida.
- 6/97-5/98 **“Use of Metformin in a Pharmacist Managed Clinic to Improve Outcomes in Type II Diabetes Mellitus”**. Faculty mentor/co-investigator in this study of improving the treatment of Type II diabetes mellitus in a family practice clinic. Funding University of Florida College of Medicine/NIH Fellowship Grant.
- 6/97-5/98 **“Evaluation and Implementation of a Pharmacist Managed Hypertension Clinic in a Primary Care Setting”**. Funding Dupont Pharmaceuticals.
- 4/97-8/97 **“Improving Outcomes in Patients with Non-Insulin Dependent Diabetes Mellitus (NIDDM) in a Primary Care Setting-A Continuing Project”**. Project director for this community health scholars research project involving a Pharm.D. student, health educator student and a medical student working together to assess the impact of a comprehensive education and pharmacotherapy review on improving patients’ outcomes. This project continued many of previous year’s functions but expanded to include more outcome based assessments including quality of life issues. Funding AHEC, University of Florida.
- 3/97-5/98 **“Patient as Teacher in Primary Care (PATPC)”** an interdisciplinary project involving the following disciplines: pharmacy, medicine, nursing, social work, and clinical psychology. Students and faculty from each discipline meet together weekly in monthly blocks to explore working up the patients’ problems from each discipline’s viewpoint. Co-investigator/developer. Funding AHEC, University of Florida.
- 2/96-8/96 **“Improving Outcomes in Patients with Non-Insulin Dependent Diabetes Mellitus (NIDDM) in a Primary Care Setting”**. Project director for this

community health scholars research project involving a Pharm.D. student and a medical student working together to assess the impact of a comprehensive education and pharmacotherapy review on improving patients' outcomes. A site specific diabetes education program will be put in place at the ACORN clinic. Funding AHEC, University of Florida.

7/93-6/95 **“HOT Study: The Hypertension Optimal Treatment Study.”**

Co-investigator and study coordinator for this multicenter, international hypertension study sponsored by Astra-Merck. Funding up to \$120,000.

11/93-4/94 **“Pharmacist Managed Anticoagulation Monitoring Service:**

Outcome Analysis.” Principle investigator in a retrospective, chart review of anticoagulated patients being followed by a warfarin monitoring service versus a control population to assess various outcome endpoints. Department of Family Medicine, University of Florida. Internal Funding.
